# SETHLOW'S STRENGTH

Claims Almost Enough Votes to Make Him Mayor.

GEORGE HUSTLING TAMMANYITES.

The Acquisition of Dayton Has Made Him an Intensely Powerful Opponent of the Citizens' Union Man - Close Fight On-Review of Situation.

New YORK, Oct. 16.—The fight for mayor of Greater New York is not quite so chaotic as a few days ago, lines being a little more closely drawn. Secretary Bliss is expected to act as chairman of a straight Republican meeting in Lenox Lyceum next week, and this will be accepted as evidence that the Washington administration favors the election of the ex-secretary of the navy.

A queer thing in this queer campaign be satisfied if Mr. Low is elected, the cholar candidate declines to reverse the proposition, saying he cannot accept Mr. George's peculiar doctrines.

It is claimed that the letter Secretary Bliss wrote in favor of Tracy will strengthen the Republican lines.

There is no doubt that General Tracy will poll the entire organization vote, in what is to be the borough of Manhattan and is now the present city of New York. The rolls of the organization contains something like 100,000

But to elect, General Tracy will have to poll at least 75,000 votes, outside of old New York, because it will take from 175,000 to 200,000 votes to win. The ex-secretary will have to make great inroads into the ranks of Van Wyck, Low and George to be elected.

Mr. Low's managers have made a eareful canvass in Brooklyn and adjacent territory outside of New York. They have, they say, the assurance of 100,000 votes. It is reasonable to allow him 60,000 votes elsewhere. This is almost enough to elect.

Henry George says Low is his most formidable opponent. The singletaxer has taken on enormous strength by the acceptance of ex-Postmaster Dayton on his ticket. Dayton accepted the nomination because he wanted an organization behind him to fight Croker. In addition to this George will have the vote of the silver Democrats, singletaxers and a great many of the laboring

Mr. Dayton's campaign is watched with deep interest, and by none more anxiously than the Tammany sachems, who fear he will draw heavily from the vote of lettercarriers, firemen and their numerous friends, who would other-wise vote for Van Wyck.

The attitude of the Germans in this campaign may be learned when the ballots are counted-it cannot be accurately stated now.

Justice Gaynor in the supreme court, Brooklyn, has granted an order to show cause to Roger M. Sherman of New York compelling the police commissioners of New York to show cause why they should not review their proceedings in the matter of certificate of nomination of Seth Low.

SPAIN HAS NO CASH.

▲ Cuban Says the War Will Not Last Another Y ar.

LONDON, Oct. 16.—Colonel Jose Zayas, who says he is accredited by the is that while Mr. George says he will Palma Cuban junta of New York as minister plenipotentiary to Great Britain from the Cuban republic, in an interview is quoted as expressing the belief that the war in Cuba will not last another year. Spain, says Colonel Zayas, cannot finance the campaign and should have accepted the insurgents' offer of \$150,000,000 for the island under the guarantee of the United States.

Colonel zayas does not anticipate assistance from the United States. All the Cubans desire, he said, is fair play and the recognition of belligerent rights, so that they can secure the necessary supplies for their troops. He says the Cubans do not desire annexation to the United States.

Miss Cisneros Renounces Spain.

#### NEW SEAL CONFERENCE.

The Coming One to Be Followed by Another with Great Britain and Canada. Salisbury Accepts - Editor Stead's Fright as to Our Intentions.

LONDON, Oct. 16.-The foreign office has intimated to the American ambassador, Colonel John Hay, that a meeting of seal experts of Great Britain, Canada and the United States will occur, as agreed upon by the Marquis of Salisbury.

It is learned that Prof. Darcy Thompson, the seal expert of the British foreign office, starts for the United States immediately. The Review of Reviews says that Editor Stead while in Washington recently discovered that unless the sealing question is speedily settled the United States government will order the destruction next season of the entire herd of seals on the whole Pribyloff islands.

CONFIRMED IN WASHINGTON.

First Conference Next Week; the Other a Week Later.

WASHINGTON, Oct. 16.—The state department confirms the report given out by the foreign office in London that Great Britain assents to a meeting of experts in Washington on the seal question, and Mr. Hay cables that Prof. Thompson, the British expert, sailed yesterday.

It is expected that the conference of the delegates of Russia, Japan and the United States will hold its first meeting the last of next week and the meeting of American and British experts

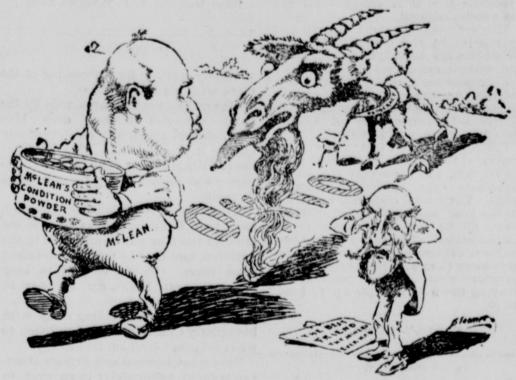

will probably take place a week later. The discovery made by Editor Stead of the intention of the United States in the event of failure to reach an agreement for the further protection of the seals, to destroy all of them on the Pribiloff islands, is supposed at the state department to have been based on the debates in congress last year, and on the fact that Representative Dingley submitted a bill to that end.

WHEN JOHN R. WITHDRAWS HIS SUPPORT.

"Dangers of a Great City" Unexpectedly Realized.

THREE KILLED IN CINCINNATI.

A Number Dangerously and Others Seriously Injured In Robinson's Opera House-Falling of Plastering Providentially Warned Many.

CINCINNATI, Oct. 16 .- "The Dangers of a Great City." on the stage at Robinson's Opera House, was cut short in its performance by a tragic realization of the actual dangers of a great city. The house was fairly well filled although not crowded. A lady in the audience says she heard a creeping noise which continued for five minutes before the catastrophe. She gave it little attention, thinking it was part of the performance. Presently the plastering began to fall in small particles at first, but enough to alarm some of timid or cautious, who retired. A little later the plastering began to shower down in great chunks. It came from the ceiling above which supported the lery, which was not very well filled. The balcony was soon emptied.

crowding of these to the door obstructed the passage of people from the parquette, which accounts in a measure for the number of casualties. Nobody expected at that moment any other danger than from the falling plastering. Suddenly and with a great crash the great central truss of the ceiling, 80 feet long and 30 feet wide, came plunging down. The ends of it struck on the two gallery wings and doubled it up in the center, sending it down into the parquette with a great scatterment of joists and timbers. Nothing on the stage was harmed. Of course there were moans of the injured, and, as often happens, loudest from those least hurt.

The news spread rapidly. There was a rush of patrol wagons and of firemen to the scene. The salvage corps, with its wagon, was first on the ground, and it was followed by all the police patrol wagons, carrying the injured to the

Cincinnati hospital. The list at the hospital showed three dead, five dangerously, if not fatally, wounded, and 26 more or less seriously injured. In addition to these a large number, probably 25 or 30, were so slightly injured as to be able to walk home.

The dead:

Miss Lucy Cohen.

An unknown man.

Mrs. George Kleeman.

Dangerously injured: Mr. Goldman. Mrs. Studder. Mary Studder. Mary Haas. An unknown woman. Seriously or slightly injured: Pearl Hall, Grace Conner, C. J. Weiss, Jacob

Weyle, Mary Hess, John White, Amelia Weyle, Mary Howe, Ella Moorman, Mrs. Della Algier and her three children, Stanley. Joseph and John: Daisy Fairhead; S. E. Long, S. J. Fairland, T. E. Wiley, Fred Jenks, William Moten, W. J. McCabe, Clint Deal. Kate White, Maggie Studder, Amelia Weil, Samuel Rosenbaum, Clint Steele.

Of the dangerously injured at the hospital several will require amputation, yet every one is refusing to submit to the operation. A score of surgeons volunteered their assistance to the hospital corps. A sufficient number was accepted. The scene in front of the hospital door was a sad one. Hundreds of people gathered there elamoring for the names of the injured. An attendant stood at the door with a list of those brought to the hospital and answered these anxious inquiries. Many names were inquired for that were not in the hospital list.

At the opera house ropes were stretched across all approaching streets, and the police had all they could do to keep the crowd of 7,000 or 8,000 people

from crashing through.

The damage to the structure was nothing at all to the stage, compara-

tively hitle to me gamery, which suifer d most, almost nothing to the dress circle, and much less than one would think from the debris scattered around through the parquette, where the main truss landed. The truss rested in the parquette very much in the shape of a capital letter V. The wonder is that so few were hurt and of the few hurt so many escaped with slight injuries.

The disaster recalls forcibly a more fearful one which took place in the same building in February, 1876. Some one cried fire when a little sputtering hiss came from the calcium light in the upper gallery. A panic followed and a score or more were killed and a number injured. The house was packed mostly with women and children to witness an allegory of America given by hundreds of school chil-

The accident was caused by the roof trusses. The house has been built more than 25, and the wood had shrunk until the bolts and nails afforded the smal est possible security. One of these trusses had rotted away from its fast-enings; it had parted and thrown two sections down, and they, in their descent, pulled the dome with them, These wood trusses are of pine, and they shrink very perceptibly in the course of years. Modern structures are put up with steel trusses.

KOREA BECOMES INDEPENDENT.

Subservient to Other Countries No Longer by Becoming an Empire.

Washington, Oct. 16.—The Korean legation has received news confirming the report that the king of Korea has proclamed himself emperor.

This is felt to have considerable significance in oriental affairs, although the cable to the legation gives no details of the change and the officials here are without any information as to the causes leading up to it. It is understood, however, to be a part of the progressive policy on which Korea has embarked, following the lead of Japan

and China. The change also has another aspect. China has long asserted a suzerainty over Korea, and it was this claim that brought on the China-Japan war. While the claim is dormant, yet China never has relinquished what she has regarded as an hereditary sovereignty over Korea. With the latter country as a kingdom, some apparent assent was given to the claim of an imperial authority in China, but with Korea herself advancing to the rank of an empire she throws off every evidence of dependence on any outside power. This independence would apply also to Japan and Russia, which have been seeking to gain influence and control in Korea, wing to that country's extensive coast ine and valuable harbors on the North Pacific.

### A PHENOMENAL MONTH.

Largest Payments Through Clearings In Any October.

DUN NOTES OTHER FINE FEATURES

Increase In Employment of Labor and Raising of Wages-Heavy Increase In Iron Production and Consumption. Large Movement of Wheat.

NEW YORK, Oct. 16 .- R. G. Dun & Co.'s Weekly Review of Trade issued today says: Foreign trade in September, the heavy increase in iron production and consumption and the largest payments through clearings ever known in October, are indications which outweigh hesitation in some markets. The increase in the employment of labor has continued with further accounts daily of works opening. increasing force of hands, or raising of wages, and at every point where actual production can be tested it appears greater than ever before.

Efforts by the Bank of England have delayed further gold exports, but with a cotton movement rising large shipments to this side are deemed certain and not distant. More gold, however,

means less just now than more iron. The output of pigiron Oct. 1 was 200,128 tons weekly, against 112,782 tons a year ago, the increase since July 1 having been 22 per cent. Unsold stocks have been reduced at the rate of 40,271 tons weekly in September, indicating a consumption exceeding 232,000 tons weekly, which is about 20,000 tons greater than ever before and 40 per cent greater than three months ago. Prices of pig hold steady, though the production has been further increased since Oct. 1, and prices of finished products generally rise with especially heavy demand for plates, rods, bars, while another contract has been taken by the Illinois Steel company to deliver 80,000 tons steel rails for Japan and the Pennsylvania company has bought 35,000

Ore shipments on the lake surpass all records, and the Rockefeller company has contracted for another steamer with two consorts to carry 20,000 tons, the largest ever built for the lakes. Makers of black sheets have reduced the price for No. 28 to \$2.10, and wire nails are 5 cents higher, the average of iron and steel products rising 1.6 per cent for the week to the highest point since April 8. Tin plates are cheaper at \$3.10 with enormous production, and copper at 11.12 cents for lake, with lead at 4.10 cents, but tin is fairly strong.

The cotton mills are producing as largely as cheap cotton invites, and with moderate demand print cloths are lower at 2.44 cents, and some grades of other goods are slightly reduced. Sales of wool for speculation have greatly decreased, but manufacturers do not find that current prices are warranted by their market for goods, though it is strong and advancing.

Sales of wool for two weeks have been 24.331,600 pounds, at the three chief markets, of which 15,397,390 pounds were domestic, and while quotations are maintained, large lots previously withdrawn by consignors are now offered.

The demand for spring goods is limited. But the prices of some qualities have advanced a shade further. There is also some quiet contracting already

for heavyweights.

Wheat has been fairly steady but moving more largely than last year from the farms and from the country. Western receipts were 15,167,054 bushels in two weeks of October, against 14,235,016 bushels last year, and Atlantic exports 6,463,401 bushels, flour included, against 4,747,845 bushels last year, while corn exports were 3,262,387 bushels, against 3,309,925 bushels last

September exports of wheat surpass all records, amounting to 25,868,838 bushels, against 17,646,815 bushels last year, owing to high prices, the value being over 100 per cent larger for all breadstuffs. The price of wheat has declined 34 of a cent and corn 1 per cent, with the government report of a yield exceeding 1,800,000,000 bushels.

Failures for the week have been 223 in the United States, against 328 last year and 36 in Canada, against 40 last year.

The Coming One to Be Followed by Another with Great Britain and Canada, Salisbury Accepts - Editor Stead's Fright as to Our Intentions.

LONDON, Oct. 16.-The foreign office has intimated to the American ambassador, Colonel John Hay, that a meeting of seal experts of Great Britain, Canada and the United States will occur, as agreed upon by the Marquis of Salisbury.

It is learned that Prof. Darcy Thompson, the seal expert of the British foreign office, starts for the United States immediately. This is felt to have considerable significance in oriental affairs, although the cable to the legation gives no details of the change and the officials here are without any information as to the causes leading up to it. It is understood, however, to te a part of the progressive policy on which Korea has embarked, following the lead of Japan

and China. The change also has another aspect. China has long asserted a suzerainty over Korea, and it was this claim that brought on the China-Japan war. While the claim is dormant, yet China never has relinquished what she has regarded as an hereditary sovereignty over Korea. With the latter country as a kingdom, some apparent assent was given to the claim of an imperial authority in China, but with Korea herself advancing to the rank of an empire she throws off every evidence of dependence on any outside power. This independence would apply also to Japan and Russia, which have been seeking to gain influence and control in Korea, wing to that country's extensive coast ine and valuable harbors on the North

Increase In Employment of Labor and Raising of Wages-Heavy Increase In Iron Production and Consumption. Large Movement of Wheat.

NEW YORK, Oct. 16.-R. G. Dun & Co.'s Weekly Review of Trade issued today says: Foreign trade in September, the heavy increase in iron production and consumption and the largest payments through clearings ever known in October, are indications which outweigh hesitation in some markets. The increase in the employment of labor has continued with further accounts daily of works opening. increasing force of hands, or raising of wages, and at every point where actual production can be tested it appears greater than ever before.

Efforts by the Bank of England have delayed further gold exports, but with a cotton movement rising large shipments to this side are deemed certain and not distant. More gold, however, means less just now than more iron.

The output of pigiron Oct. 1 was 200,128 tons weekly, against 112,782 tons a year ago, the increase since July 1 having been 22 per cent. Unsold stocks have been reduced at the rate of 40,271 tons weekly in September, indicating a consumption exceeding 232,000 tons weekly, which is about 20,000 tons greater than ever before and 40 per cent greater than three months ago. Prices of pig hold steady, though the production has been further increased since Oct. 1, and prices of finished products generally rise with especially heavy demand for plates, rods, bars, while another contract, has been taken by the Illinois Steel company to deliver 30,000 tons steel rails for Japan and the Pennsylvania company has bought 35,000 tons.

Ore shipments on the lake surpass all records, and the Rockefeller company has contracted for another steamer with two consorts to carry 20,000 tons, the largest ever built for the lakes. Makers of black sheets have reduced the price for No. 28 to \$2.10, and wire nails are 5 cents higher, the average of iron and steel products rising 1.6 per cent for the week to the highest point since April 8. Tin plates are cheaper at \$3.10 with enormous production, and copper at 11.12 cents for lake, with lead at 4.10 cents, but tin is fairly strong.

The cotton mills are producing as largely as cheap cotton invites, and with moderate demand print cloths are lower at 2.44 cents, and some grades of other goods are slightly reduced. Sales of wool for speculation have greatly decreased, but manufacturers do not find that current prices are warranted by their market for goods, though it is strong and advancing.

Sales of wool for two weeks have been 24,331,600 pounds, at the three chief markets, of which 15.397,390 pounds were domestic, and while quotations are maintained, large lots previously withdrawn by consignors are now offered.

The demand for spring goods is limited. But the prices of some qualities have advanced a shade further. There is also some quiet contracting already for heavyweights.

Wheat has been fairly steady but moving more largely than last year from the farms and from the country. Western receipts were 15,167,054 bushels in two weeks of October, against 14,235,016 bushels last year, and Atlantic exports 6,463,401 bushels, flour included, against 4,747,845 bushels last year, while corn exports were 3,262,387 bushels, against 3,309,925 bushels last

September exports of wheat surpass all records, amounting to 25,868,838 bushels, against 17,646,815 bushels last year, owing to high prices, the value being over 100 per cent larger for all breadstuffs. The price of wheat has declined 3/4 of a cent and corn 1 per cent, with the government report of a yield exceeding 1,800,000,000 bushels.

Failures for the week have been 223 in the United States, against 328 last year and 36 in Canada, against 40 last

The Stuff Was Confiscated and the Youngsters Allowed to Go Their Way-It Is Not Known Who Lost the Bottles or When They Were Taken.

There are a number of small boys in this town who should be within the confines of the Lancaster school instead of roaming the streets of Liverpool.

The other evening a driver in the employ of Robert Hall, was walking through the lumber yard on Broadway when he noticed that a number of small boys were having no end of fun. He investigated and discovered they were rapidly disposing of a case of beer, and several were already showing the effects of the stuff.

The case was reported to Mr. Hall without delay, and he in turn telephoned for the police. An officer was not long in reaching the ground, and when he appeared the youngsters fled as rapidly as the circumstances would allow. The beer was confiscated.

Why the lads were not arrested and the case probed to the bottom, is one of the things which does not appear on the surface.

WOMEN'S MISSION BOARD. Flourishing Condition.

INDIANAPOLIS, Oct. 16 .- The session of the national Christian hurch convention, at the Central Christian church, was devoted to the department of Christian woman's board of missions. Devotional exercises were held. President Mrs. O. A. Burgess delivered

her annual address. The secretary's report showed 1,603 auxiliaries in the United States, with an aggregate membership of 30,367 and contributions last year of \$55,450.

The treasurer's report showed total receipts for the year, including a balance of \$5,197 at the beginning of it, of \$72,723 and disbursements of \$68,728, leaving a balance of \$3,995.

The report of the Foreign Missionary

society of the church, to be made to the convention, will show that the society represents over 1,000,000 communi cants. Their total missionary offerings for the year aggregate over \$500,000, nearly all of which is spent in the United States. The past year has been the most successful in the society's history, more than \$12,000 in excess of any previous year having been raised, bringing the total receipts up to \$106. 222.10.

Brotherhood of St. Andrew Participated In the Solemn Service.

BUFFALO, Oct. 16.—St. Paul's church was filled with members of the Brotherhood of St. Andrew when holy communion was celebrated by Rt. Rev. Edward Stuart Talbot, lord bishop of Rochester, assisted by the Rev. J. A. Regester of Buffalo.

President James L. Houghteling called the first business session of the brotherhood to order at Music Hall. A resume of the work of the officers during the past year was submitted. It shows a slow growth, the number of chapters being 1,226 in 1897 as against 1,174 in 1896.

The report of the treasurer showed an apparent surplus of \$3,125.77. The receipts for the year were \$26,087.36, the assets \$10,563.31 and the liabilities \$7,410.54.

At the noon hour prayers for the missions of the church and the Brotherhood of St. Andrew were read by the Rt. Rev. Dr. Leonard, bishop of Utah.

President Houghteling delivered his opening address, entitled "The Brotherhood Man and His Work. The session closed with the benedic-

next annual meeting is the Rev. R. R. deredith, D. D., of Brooklyn, with Rev. George C. Adams of San Francisco as alternate. The business of the closing session included several informal reports from various foreign missions.

The report of the committee appointed last year to consider an amendment to the charter by which women could be elected to the board as corporate members left the question still open. It is the judgment of the committee that the board is entirely and perfectly competent, under the present charter, without amendment, to elect women as indicated.

#### PRINCIPLES OF FAITH.

They Were Discussed at the Evangelical Lutheran Conference.

ERIE, Pa., Oct. 16.—The second day's session of the general council of the Evangelical Lutheran church was opened with a general discussion of the fundamental principles of faith. Committees were appointed on Jewish missions in New York and on the purchase of a publication house.

Rev. H. W. Roth of Chicago is the chairman of the former, and Rev. W. Weiskotten of the latter. Rev. J. O. Yonger of Manitowoc, Wis., was introduced as the official visitor from the United Norwegian church, and Rev. J. J. Kidsig of New York from the Danish church. The foreign missions were discussed, and the board was enlarged to seven clergymen and eight laymen. Rev. J. Telleen, superintendent of foreign missions, made an address.

Shall we look and see? Far to the south, far beyond the bold bluffs of the White river, far beyond the swift waters of the Niobrara—"L'Eau Qui Court" of the old French trapper-far up from the ravines, down from the across the swirling flood of the North Platte, and dotting the northward slopes, swarms of naked, brilliantly painted red warriors in their long, trailing war bonnets of eagles' feathers are darting about on nimble ponies or, crouching prone along the ridges, are eagerly watching a dust cloud coming northward on the Sidney road. Behind them, between them and the Platte. are the weltering mutilated bodies of half a dozen herders and teamsters and the smoking ruins of their big freight wagons. Like the tiger's taste of blood, the savage triumph in the death of their hapless foes has tempted them far beyond their accustomed limits. Knowing the cavalry to be scouting only north of the Platte, they have made a wide detour and swooped around to this danger haunted road, eagerly watching for the coming of other white men, who, like the last, should be ignorant of their presence and too few in number to cope with such a foe.

Here along the ridge north of the little branch of the Platte half a hundred young warriors crouch and wait. Farther back, equally vigilant, other bands are hiding among the brakes and ravines near the river, while their scouts keep vigilant watch for the coming of cavalry. Forrest's grays and Wallace's sorrels cannot be more than a day's ride away, and will be hurrying for the road the moment they know that the Indians have slipped around them. Wallace, up the Platte, has already heard.

It is 8 o'clock this hot, still Sunday afternoon, and they have been six hours out from Sidney, driving swiftly and

steadily northward, when, as they reach the summit of a high ridge and stop to breathe their panting team, Colonel Gaines takes a long look through his fieldglass. Just in front is the shallow valley of the little stream now called the Pumpkinseed, though pumpkins were unheard of features in the landscape of 15 years ago.

Off to their right front, several miles away, lie the low, broad bottom lands of the Platte; across the Pumpkinseed, a mile distant, another ridge like the one on which they halted, only not so high; to the westward a tumbling sea of prairie upland, all buttes, ridges, ravines, coulees, but not a living soul is anwyhere in sight. Far as his practiced eye can sweep the horizon and the broad lowlands of the Platte not a sign of a living, moving object can Colonel Gaines detect. Turning around, he trains his glass upon the tortuous road they had been following, and along

which the dust is slowly settling in their wake. Something seems to attract his gaze, for he holds the binocle steadily toward the south. Naturally Captain Cross and the two soldiers follow with their eyes. The third infantryman has dismounted and is readjusting the girths of his saddle.

"What is it?" asks Cross

"I can't make out," is the reply. Something is kicking up a dust there, some miles behind us-a horseman, I should say, though I've seen nobody. Wait a few minutes. He's down in a swale now, whoever it is."

Everybody turns to look and listen. Those were days when such a thing as a single horseman following in pursuit had a meaning that is lacking now. Three, four minutes they wait in

silence. Then the colonel suddenly ex-

bars all rattle noisily. "Quiet there, you fool!" growls the driver angrily, and with a threatening sweep of his long whiplash. Then the

silence becomes intense again, and every man strains his eyes over the prairie slopes shimmering in the heat of the July sun. Suddenly an exclamation bursts from two or three pairs of bearded lips. Far away, but in plain sight in that rare atmosphere, a speck of a horseman darts into view over a distant ridge, sweeps down the slope at full gallop and plunges out of sight again in a low dip of the rolling surface. 'No man rides like that unless there

is mischief abroad," mutters Cross as he swings out of the wagon to the ground. "Give me my rifle, Murray."

Then, sudden as a thunderclap from summer sky, with wild, shrill clamor, with thunder of hoofs and sputter of rapid shots, with yell and taunt and hideous warery, from the very ground itself, from behind every little ridge, prairie buttes, hurling upon them in mad, raging race, there flashes into sight of their startled eyes a horde of painted savages.

"The Sioux! The Sioux!" yells the driver as he leaps from his box. "Hang on to your mules!" shouts

Cross. "Down with you, men! Fire slow. They'll veer when they get in closer. Now!"

Bang! goes Cross' piece. Bang! bang! o the rifles of the nearest soldiers. The mules plunge wildly and are tangled in an instant in the traces. Over goes the wagon with a crash. Bang! goes Gaines' big Springfield as he coolly spreads himself on the ground. An Indian pony stumbles and hurls his rider on the turf, and Cross gives an exultant cheer. Yet all the same he knows full well that now it is life or death. The little party is hemmed in by a host of savage foes.

#### CHAPTER XII. MYSTERIOUS HOOF PRINTS.

It was Saturday night that, from far up the Platte, the news came to Captain Vallace of the dash made by the Sioux for the Sidney road. For two days previous he had been hunting Indians up stream toward the Rawhide and had found a perfect network of pony tracks and had had some very distant glimpses of flitting warriors. His scouts had told him that the Sioux and Cheyennes were swarming over the country to the porthwest of him, and that none had appeared to the east. It was his busi-

A woman cannot be too careful of her health. Her happiness as maid, wife and mother is dependent upon it. Every woman should realize that her general health depends upon her health in a womanly way. When a woman complains of being sluggish, dizzy, nervous and despondent the average doctor attributes these symptoms to heart trouble, or disorders of the liver. He is not right once in ten times.

When a woman feels this way she is usually suffering from weakness or disease of the organs distinctly feminine. Dr. Pierce's Favorite Prescription is the best of all known remedies for suffering women. It acts directly on the delicate and important organs that bear the burdens of maternity. It makes them strong, healthy and vigor. ous. Thousands of women who were weak, nervous, fretful and unhappy wives are today happy, healthy, helpful and robust as the result of the use of this marvelous rem. edy. It is the discovery of an eminent and skillful physician, Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. During those years, with the assistance of a staff of able physicians, he has prescribed for many thousands of ailing women. He will gladly, without charge, answer letters from suffering wo-men. The "Favorite Prescription" is for sale by all good medicine dealers and noth-ing else is "just as good."

Sister Eliza L. de Falcon, of Corpus Christi, Nueces Co., Tex., writes: "This is to tell you that I have been ill for twenty-one years and was finally cured by your medicines, 'Golden Medical Discovery' and 'Favorite Prescription.' I was completely cured after taking this medicine."

INDIANAPOLIS, Oct. 16.-The session of the national Christian hurch convention, at the Central Christian church, was devoted to the department of Christian woman's board of missions. Devotional exercises were held. President Mrs. O. A. Burgess delivered her annual address.

The secretary's report showed 1,603 auxiliaries in the United States, with an aggregate membership of 30.367 and contributions last year of \$55,450.

The treasurer's report showed total receipts for the year, including a balance of \$5,197 at the beginning of it, of \$72,723 and disbursements of \$68,728,

leaving a balance of \$3,995.

The report of the Foreign Missionary society of the church, to be made to the convention, will show that the society represents over 1,000,000 communi cants. Their total missionary offerings for the year aggregate over \$500,000, nearly all of which is spent in the United States. The past year has been the most successful in the society's history, more than \$12,000 in excess of any previous year having been raised, bringing the total receipts up to \$106.

#### TOOK HOLY COMMUNION.

Brotherhood of St. Andrew Participated In the Solemn Service.

BUFFALO, Oct. 16.-St. Paul's church was filled with members of the Brotherhood of St. Andrew when holy communion was celebrated by Rt. Rev. Edward Stuart Talbot, lord bishop of Rochester, assisted by the Rev. J. A. Regester of Buffalo.

President James L. Houghteling called the first business session of the brotherhood to order at Music Hall. A resume of the work of the officers during the past year was submitted. It shows a slow growth, the number of chapters being 1,226 in 1897 as against

The report of the treasurer showed an apparent surplus of \$3,125.77. The receipts for the year were \$26,087.36, the assets \$10,563.31 and the liabilities

At the noon hour prayers for the missions of the church and the Brotherhood of St. Andrew were read by the Rt. Rev. Dr. Leonard, bishop of Utah.

President Houghteling delivered his opening address, entitled "The Brother-hood Man and His Work." The session closed with the benedic-

tion by Bishop Walker of Buffalo. It is probable that the next convention will be held in July or August,

patiently waiting for the coming or the clerk with his keys of office.

One or two young braves rode by the camp, shrouded in their dark blue blankets and apparently careless of any change in the condition of affairs, yet never failing to note that there were 50 horses and soldiers ready for duty there in camp.

Their breakfast finished, Charlton said that he must go at once to the office of the post commander over in the garrison, and that he might be detained some hours. "It will be well to keep the men here, Blunt, for we may be needed any moment.'

And yet as he was riding away with his orderly Charlton stopped to listen to what Sergeant Graham had to say.

"Sergeant Dawson and Private Donovan wanted particularly to go over to the post for a few hours this morning, and so did some of the others, but I told them that the captain's orders were we should all stay at camp; we were almost sure to be wanted. They were all satisfied, sir, but Dawson and Donovan, who made quite a point of it, and I said I would carry their request to the captain." And to Blunt's surprise, as well as that of Sergeant Graham, the captain coolly nodded.

Very well. They've both been doing hard work of late. Tell them to keep their ears open for 'boots and saddles;' otherwise they may stay until noon. After dinner perhaps I will give others a chance to turn."

Fifteen minutes later Captain Charlton was in consultation with the post commander, and after guard mounting they returned to the colonel's house, where a tall infantry soldier, the provost sergeant, was awaiting him.

#### CHAPTER XI. HEMMED IN BY SAVAGE FOES.

Back at the cavalry camp there was no little subdued chat and wonderment among the troopers. Lounging in the shade of the trees along the stream and puffing away at their pipes, playing cards, as soldiers will, and poking fun at one another in rough, good natured ways, the men were yet full of the one absorbing theme—Fred Waller's most unaccountable disappearance and the loss of so much of their hard earned

Corporal Wright, "that when the old system, and chains, tugs and swing next annual meeting is the Rev. R. man"—the captain is always the "old bars all rattle noisily. Meredith, D. D., of Brooklyn, with man" to his troops-"got back he would ride over Sergeant Dawson roughshod for letting Waller slip away on his guard, but I listened to him this morning, and he talked to him just like a man strains his eyes over the prairie Dutch unole. I tell you, Dawson felt a slopes shimmering in the heat of the heap better after it was over. He said the captain never blamed him at all."

> Noon came. So did an orderly telling Mr. Blunt that the captain wished to see him over at the telegraph office and to order the horses fed at one. Fortyeight big portions of oats were poured and plunges out of sight again in a low from the sacks forthwith. Dawson and Donovan were not yet back.

"Leave theirs out," said Sergeant Graham. "They'll be back presently. This means business again and no mistake. Where's the trouble now, I won-

Shall we look and see? Far to the south, far beyond the bold bluffs of the White river, far beyond the swift waters of the Niobrara-''L'Eau Qui Court" of the old French trapper—far across the swirling flood of the North Platte, and dotting the northward slopes, swarms of naked, brilliantly painted red warriors in their long, trailing war bonnets of eagles' feathers are darting about on nimble ponies or, crouching prone along the ridges, are eagerly watching a dust cloud coming northward on the Sidney road. Behind them, between them and the Platte. are the weltering mutilated bodies of half a dozen herders and teamsters and the smoking ruins of their big freight wagons. Like the tiger's taste of blood, the savage triumph in the death of their hapless foes has tempted them far beyond their accustomed limits. Knowing the cavalry to be scouting only north of the Platte, they have made a wide detour and swooped around to this danger haunted road, eagerly watching for the coming of other white men, who, like the last, should be ignorant of their presence and too few in number to cope with such a foe.

Here along the ridge north of the little branch of the Platte half a hundred young warriors crouch and wait. Farther back, equally vigilant, other bands are hiding among the brakes and ravines near the river, while their scouts keep vigilant watch for the coming of cavalry. Forrest's grays and Wallace's sorrels cannot be more than a day's ride away, and will be hurrying for the road the moment they know that the Indians have slipped around them. Wallace, up the Platte, has already

It is 8 o'clock this hot, still Sunday afternoon, and they have been six hours out from Sidney, driving swiftly and

steadily northward, when, as they reach the summit of a high ridge and stop to breathe their panting team, Colonel Gaines takes a long look through his fieldglass. Just in front is the shallow valley of the little stream now called the Pumpkinseed, though pumpkins were unheard of features in the landscape of 15 years ago.

Off to their right front, several miles away, lie the low, broad bottom lands of the Platte; across the Pumpkinseed, a mile distant, another ridge like the one on which they halted, only not so high; to the westward a tumbling sea of prairie upland, all buttes, ridges, ravines, coulees, but not a living soul is anwyhere in sight. Far as his practiced eye can sweep the horizon and the broad lowlands of the Platte not a sign of a living, moving object can Colonel Gaines detect. Turning around, he trains his glass upon the tortuous road they had been following, and along

"I can't make out."

which the dust is slowly settling in their wake. Something seems to attract his gaze, for he holds the binocle steadily toward the south. Naturally Captain Cross and the two soldiers follow with their eyes. The third infantryman has dismounted and is readjusting the girths of his saddle.

"What is it?" asks Cross.

"I can't make out," is the reply. Something is kicking up a dust there, some miles behind us—a horseman, I should say, though I've seen nobody. Wait a few minutes. He's down in a swale now, whoever it is.'

Everybody turns to look and listen. Those were days when such a thing as a single horseman following in pursuit had a meaning that is lacking now.

Three, four minutes they wait in silence. Then the colonel suddenly ex-

"I have him—a mere dot yet!" Presently he lowers his glasses and dusts the lenses with his handkerchief.

His face is graver. "Whoever that is, he is riding for all he is worth,".he says. "I half believe he wants to catch us."

Another long look, utter silence in the party. A mule in the wheel team "I would have bet any amount," said gives an impatient shake of his entire

> Quiet there, you fool!" growls the driver angrily, and with a threatening sweep of his long whiplash. Then the silence becomes intense again, and every July sun. Suddenly an exclamation bursts from two or three pairs of bearded lips. Far away, but in plain sight in that rare atmosphere, a speck of a horseman darts into view over a distant ridge. sweeps down the slope at full gallop dip of the rolling surface.

"No man rides like that unless there is mischief abroad," mutters Cross as he swings out of the wagon to the ground. "Give me my rifle, Murray."

Then, sudden as a thunderclap from summer sky, with wild, shrill clamor, with thunder of hoofs and sputter of rapid shots, with yell and taunt and hideous warery, from the very ground itself, from behind every little ridge. up from the ravines, down from the prairie buttes, hurling upon them in mad, raging race, there flashes into sight of their startled eyes a horde of painted savages.

'The Sioux! The Sioux!" yells the driver as he leaps from his box.

"Hang on to your mules!" shouts Cross. "Down with you, men! Fire slow. They'll veer when they get in closer. Now!"

Bang! goes Cross' piece. Bang! bang! go the rifles of the nearest soldiers. The mules plunge wildly and are tangled in an instant in the traces. Over goes the wagon with a crash. Bang! goes Gaines' big Springfield as he coolly spreads himself on the ground. An Indian pony stumbles and hurls his rider on the turf, and Cross gives an exultant cheer. Yet all the same he knows full well that now it is life or death. The little party is hemmed in by a host of savage foes.

#### CHAPTER XII.

MYSTERIOUS HOOF PRINTS.

It was Saturday night that, from far up the Platte, the news came to Captain Wallace of the dash made by the Sioux for the Sidney road. For two days previous he had been hunting Indians up stream toward the Rawhide and had found a perfect network of pony tracks and had had some very distant glimpses of flitting warriors. His scouts had told him that the Sioux and Cheyennes were swarming over the country to the porthwest of him, and that none had appeared to the east. It was his business, therefore, to move against them, and move he did, trusting that Forrest

A woman cannot be too careful of her health. Her happiness as maid, wife and mother is dependent upon it. Every woman should realize that her general health depends upon her health in a womanly way. When a woman complains of being sluggish, dizzy, nervous and despondent the average doctor attributes these symptoms to heart trouble, or disorders of the liver, He is not right once in ten times.

When a woman feels this way she is usually suffering from weakness or disease of the organs distinctly feminine. Dr. Pierce's Favorite Prescription is the best of all known remedies for suffering women. It acts directly on the delicate and important organs that bear the burdens of maternity. It makes them strong, healthy and vigorous. Thousands of women who were weak. nervous, fretful and unhappy wives are to-day happy, healthy, helpful and robust as the result of the use of this marvelous rem-edy. It is the discovery of an eminent and skillful physician, Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. During those years, with the assistance of a staff of able physicians, he has prescribed for many thousands of ailing women. He will gladly, without charge, answer letters from suffering wo-men. The "Favorite Prescription" is for sale by all good medicine dealers and noth-ing else is "just as good."

Sister Eliza L. de Falcon, of Corpus Christi, Nueces Co., Tex., writes: "This is to tell you that I have been ill for twenty-one years and was finally cured by your medicines, 'Golden Medical Discovery' and 'Favorite Prescription.' I was completely cured after taking this medicine."

Veterinary Surgeon Green requires no introduction to our readers, and on the other hand our readers can safely be trusted to draw their own deductions and arrive at their own conclusions. Read this. "Some time ago," says Mr. Green, "while attending a sick horse belonging to Mr. G. H. Gardner, of 168 Jackson street, he remarked to me that the horse seemed to be in pain. I replied that I was the sicker of the two, as I could at the time scarcely straighten up with my back from lameness, weak. ness and severe pains. He asked me what my symptoms were and I explained to him that I had suffered for a number of years from my kidneys, that I would have attacks at times when nothing would help me and it was agony for me to get around, but that I could not endure idleness. The secretions from the kidneys were very high colored and aciduous, that I had spells of dizziness. when I would see black specks floating before my eyes, and felt generally broken up. He looked up and said that he had the very thing I needed to cure me in the house-Doan's Kidney Pills. He went into the house and brought me out eight pills. I took them with me and used them two at a dose. The effect was astonishing to me. I felt it almost at once, and went to the W. and W. Pharmacy and bought a box and took them. The encouragement held out to me by the first eight pills was not mythical, as by their continued use the improvement continued, and I consider no expression of praise too strong for Doan's Kidney Pills; in short, they are Ne Plus Ultra. I am 68 years of age and have no hope of ever being permanently cured, as my trouble has become chronic, but this I do know, Doan's Kidney Pills are the best remedy for the kidneys that has ever been placed before the people of this country. Trouble with the kidneys occurs and recurs periodically, and any remedy that will ward off an attack or tide the victim over it so easily as Doan's Kidney Pills does deserve the support of the public "

Doan's Kidney Pills are for sale by all dealers, price 50 cents per box, 6 boxes for \$2.50. Mailed to any address on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

THE importance of good municipal government cannot be underestimated. The practice of permitting politicians to control the towns and cities of this big country has already produced a condition not in keeping with the intelligence of the people. Wonder is that the American public has been so blind to its own interests as to permit the trampling down of laws purely for political purposes.

### PLACING THE RESPONSIBILITY.

The Salem Herald occupies a position which is nothing if it is not peculiar. For weeks it has been so blinded by its silver bandage that it could see no evidence of returning prosperity; yet the moment someone suggested that a bonus be raised for the construction of a pottery it became wide awake. It aided that movement to the best of its ability, and when the project collapsed because the money was not collected the Herald became the sorest of the sore. The Herald should not feel that way. It is wrong, for it has itself spread abroad a sentiment which caused the people to fear for the future. It has convinced them that times are hard, money is tight, and the future is an uncertainty which will likely end in destruction and financial loss. The Herald, perhaps, did more toward keeping the pottery away from Salem than any other agent, for, if the people of that town really had faith in the future, they would not have permitted an opportunity of that kind to pass.

Are Allowed the Attorneys In Robison's Case

TO PREPARE FOR THE TRIAL

Judge Young Objected to the Time, and Prosecutor Speaker Would Have Liked It Extended, but Judge Smith Set the Date at Nov. 8-An Assignment.

Lisbon, Oct. 16-[Special.]-Robison's second trial has been set, and will begin on the morning of Nov. 8, as previously announced in the News Re-

It was 7 o'clock last evening before the matter was called in court, owing to a rush of business after the return of Prosecutor Speaker, who was attending a funeral. The early date for the trial, which gives the attorneys but three weeks for preparation, was a disappointment to those conducting the case, as they were confident a later date would be chosen. Judge Young made a plea to the court that the hearing be delayed as long as could consistently be done, stating that the greatest time which should be given for preparation would be short enough.

"The witnesses," he said, "are scattered. One of the principal ones for the defense who was in Pittsburg, is now in Kansas City. Our time for preparation before was short, too short, as I was compelled to devote every moment of my time in order that we might be able to go to trial at the assigned time. In this trial it will be a physical impossibility to go to trial at an early date."

Prosecutor Speaker also said that he was entirely without knowledge as to the whereabouts of the witnesses who gave the strongest testimony last June, and at the close of his term as prosecutor, he was overwhelmed with work demanding much of his attention. Judge Smith assigned the case for Nov. 8, the week following the assignment of civil cases already made, stating that any civil cases in which Judge Young was interested might be continued. Other counsel would be appointed for the prisoner if present counsel could not be prepared for trial.

The jury of 36 was drawn last night by Clerk McNutt and Deputy Supplee. They are to appear Nov. 8, at 10 o'clock. The names will not be given out for publication until service is made. Twelve of them are from East Liverpool.

Robison was in court all afternoon waiting patiently until his case could be reached. He was cheerful and confident that sufficient time would be given in which to prepare his case.

#### An Assignment.

The assignment for next week is as follows:

Tuesday-J. L. Lawrence vs. Protected Home Circle. Wednesday-D. P. Courser vs. E. P. Speidel; C. A. Jones Lain vs. County Commissioners; Louis M. Barth vs. Ambrose Bradshaw; W. N. Sheehan vs. J. W. Thompson.

Are Allowed the Attorneys In Robison's Case

TO PREPARE FOR THE TRIAL

Judge Young Objected to the Time, and Prosecutor Speaker Would Have Liked It Extended, but Judge Smith Set the Date at Nov. 8-An Assignment.

LISBON, Oct. 16-[Special.]-Robison's second trial has been set, and will begin on the morning of Nov. 8, as previously announced in the NEWS RE-

It was 7 o'clock last evening before the matter was called in court, owing to a rush of business after the return of Prosecutor Speaker, who was attending a funeral. The early date for the trial, which gives the attorneys but three weeks for preparation, was a disappointment to those conducting the case, as they were confident a later date would be chosen. Judge Young made a plea to the court that the hearing be delayed as long as could consistently be done, stating that the greatest time which should be given for preparation would be short enough.

"The witnesses," he said, "are scattered. One of the principal ones for the defense who was in Pittsburg, is now in Kansas City. Our time for preparation before was short, too short, as I was compelled to devote every moment of my time in order that we might be able to go to trial at the assigned time. In this trial it will be a physical impossibility to go to trial at an early date."

Prosecutor Speaker also said that he was entirely without knowledge as to the whereabouts of the witnesses who gave the strongest testimony last June, and at the close of his term as prosecutor, he was overwhelmed with work demanding much of his attention. Judge Smith assigned the case for Nov. 8, the week following the assignment of civil cases already made, stating that any civil cases in which Judge Young was interested might be continued. Other counsel would be appointed for the prisoner if present counsel could not be prepared for trial.

The jury of 36 was drawn last night by Clerk McNutt and Deputy Supplee. They are to appear Nov. 8, at 10 o'clock. The names will not be given out for publication until service is made. Twelve of them are from East Liverpool.

Robison was in court all afternoon be reached. He was cheerful and confident that sufficient time would be given in which to prepare his case.

### LET SOME CONTRACTS

The Board of Education Transacted Business.

TWO TEACHERS WILL BE PAID

For the Time They Spent Waiting For the Completion of the Bradshaw Building. Paid Bills-Cheaper Coal Wanted For the East End.

The board of education met last evening with members Cripps, Fisher, Mc-Clain, McGraw, Norris and Vodrey present.

The session was opened with prayer and the reading of the scriptures. The minutes were read and approved, and Mr. McGraw reported that the committee having in Gardendale Trentvale and schools had viewed the ground and decided to make no improvement, except in board walks. The bids for the lumber were as follows: Robert Hall, \$75; J. T. Smith, \$72.75; Union Planing company, \$68.42. They accepted the bid of the last named company, but it did not include 10 extra planks.

"The fences are in good condition, but the people in the district have not reformed," was the way he put it.

At Gardendale school a walk was laid on each side of the building, the spouts were repaired, gutters cleaned, flag staff fixed, posts put up to keep teams from driving too close to the building and the blackboards painted. The report was accepted, and Mr. McClain will act as permanent committee on the Sheridan avenue building, while Mr. Vodrey will look after the Bradshaw school.

Clerk Norris reported that four bonds which come due annally, had been redeemed, but the interest coupons were slow in coming in and quite a number due the first of the month were not in The following bills were then ordered paid: Robert Moore, \$6.08; S. C. Herron and G. H. Deidrick, \$47.50; A. Rattray, \$9.02; William Allison, \$12.75; Angus Giethlen, \$17.25; Adams Express company. \$2.35; T. O. Timmons, \$8.40; Kinsey plumbing company, \$39.50; News Re-VIEW, \$24.60: J. H. Simms, \$10.50; Crisis, \$3.75; Given & Co., \$34; Heath & Co., \$35.05; Sheldon & Co., \$14.10; American Book company, \$206.95; William G. Johnson & Co., \$182.82; H. A. Weeks, \$4; Eagle Hardware, \$4.85; Knowles, Taylor & Anderson, 45c; Diamond Hardware, \$6.42; Mrs. Roberts, \$3; Mrs. Moore, \$3; J. T. Smith, \$8; G. W. Deidrick, 35c; S. Herron, \$5; H. Deidrick, \$4.50; Will-1am Naylor, \$6.75; H. Rinehart, \$3; Donehoo & Henneberry, \$7.51; H. Burgess, 30c.

Clerk Norris read from an act of the general assembly relating to children tian seeks. outside of the city limits attending city schools. It provides that where children. under 12 years of age living beyond the city and a mile and a half from the public school, attend the city schools, a demand can be made on the directors of the township in which they live for their tuition. The matter was discussed but little, and before the next meeting the case in question will be looked up.

President Vodrey reported that they had advertised for bids for supplying the schools with coal and had received but two, that of the East Liverpool Ice and Coal company and W. H. Frazier. He suggested that they be referred to a committee, but Clerk Norris objected to this because of the discussion of last year, and the board went into a committee of the whole to examine the bids. It resulted in Mr. Frazier being given the contract, with the exception of the East End school, and unless a better rate can be secured there he will get the entire contract. At the request of one of the bidders the figures were not given to the reporters.

Mr. Cripps brought up the question whether Miss Dawson and Miss Webster, the teachers at Bradshaw school, should be paid for the time they lost while the building was being completed. There was a long discussion on the subject which finally ended in Miss Dawson getting \$15.75 and Miss Webster \$22.50.

Superintendent Rayman reported that Miss Gaver would be home Monday and resume her duties at the East End school.

Miss Rose, of the Trentvale school. was included in the list of principals, and will receive \$5 additional salary.

#### EPWORTH LEAGUE.

Lesson For the Week Beginning Oct. 17. Comment by Rev. W. J. Yates, A. M .- Topic, Unity and Beauty of the Church.

SCRIPTURE READING .- Eph. iii, 14-19. It is for this that Paul prays continually for the church. Strength of spirit,

enlightenment of mind and depth of emotion when the purposes of God become revealed through Christ are the

valuable things. The sense of the beautiful impresses all in some degree. All nature is full of beautiful sights and sounds. Agreeable sensations are stirred in us in response to the action of the outer world upon us. Sky and ocean, mountains and plain, flowers and birds, the human face and form and voice are all sources

of pleasurable emotions. But when we see that all are united in one great whole, are the product of one master mind, are all obedient to law and work harmoniously to fixed ends, when we see that the numberless objects in the created world are bound together into a whole or universe, then a deeper admiration possesses us, and an awe for Him who made and maintains all by His power stirs our inner nature to its depths.

When this glorious God assumes human nature and lives on earth a man that He may reveal fully His nature as love and gather all men who will receive Him into a divine fellowship, then we perceive a deeper beauty than things acquire a new meaning and value. The sense of glad acceptance of Christ as Master fills the soul. Pain and pleasure are differently viewed than before. A deep sense of personal obligation and glad allegiance seizes the soul. The love of God through Christ becomes the controlling passion. Life is of value only as He guides. Death is release from exile and summons to His blessed presence. All men are brethren. To aid them in all ways is the delight of life. All glory and honor and power and blessing are in Christ alone.

#### The Reward of Righteousness.

There is much of spurious goodness which is good only for the sake of some expected reward. It is pleasant to be appreciated and to have one's efforts commended, but he who is honest for the reward he will get, who speaks the truth for the praise he will receive, who prays and speaks and gives so as to be allowed to enter heaven, is neither honest, truthful nor devout. The righteous man loves the right because it is right and not for any reward he may receive for doing right. Its popularity or unpopularity does not change his estimate serves God because he loves Him and ical action is much ameliorated. not for any hope of getting into heaven . or of bettering his worldly prospects. His aim is to please God for the love he bears and not for any prize he hopes for. The greatest possible compensation to the truthful soul is not the praise of men or angels, but the possession of the truth. The highest reward of honesty is conscious integrity. Righteousness is its own best prize. Goodness because it is good, purity because it is pure, holiness because it is lovable, brotherhood because it is beautiful—these the Chris-

#### The Use of Prayer.

It is not merely for the purpose of getting things. It is a great mistake to consider prayer as only asking for something. Petition, asking, pleading, is truly a part of it, and often an important part, but far from the whole. The Lord's Prayer may well be regarded as our model. If we carefully consider it. we find it to contain adoration of God as the Father possessed of all heavenly power and blessedness. Confession of unworthiness and acknowledgment of fault lead to supplication for pardon, grace and any blessings we need. Intercession for blessings upon others also finds a true place in prayer with thanksgiving for benefits received. All these are essential parts of prayer. None of them should be omitted, since the use of prayer is to come into heart communion with God. This can only be done by realizing the adorable presence of God as Father, thankful recognition of His mercies, humble confession of infirmity and wrongdoing, earnest desire for divine strength and guidance and impartation of the graces of spiritual life. Then comes the asking for material benefits and earthly good.

#### Testimony.

Many who really love Christ and desire to serve Him truly almost never speak of His love either in public or private. They really believe they have no "gift of speech." They can talk freely on all other subjects of interest to them, but on this one they are silent. This is an evil which in most cases can and should be overcome. To tell another of one's Christian hope and purpose gives strength to that hope and purpose and may lead another to share in like blessings. All converts should early begin to testify in the public services of the church. Pray in private, read the Bible, meditate on the things of God, then in the meeting.

Testify promptly. Testify cheerfully. Testify regularly. Testify humbly. Testify persuasively.

#### The Hudson River Valley.

The Hudson river valley and the aspect of the river itself have passed through many changes since the eye of 50 years and over first knew them. The old manorial estates, the many acred 'places' derived from grants or by purchase when land was worth but little money, were then in the full flower of their hospitable occupancy and, with the exception of a few market towns, themselves of small importance-Hudson, Poughkeepsie, Newburg-over all the region else between Albany and New York there brooded a sleepy, pastoral peace, not to be broken until the demon of steam should come with ear splitting scream and thundering tread, asserting its right of eminent domain. At the sound of that unruly voice the white winged brood of sloops and sailing vessels of all kinds disappeared, never to return—a loss ill supplied by the splendid steamboats which, ablaze we had imagined before. All material with lights like so many Aaron's breastplates, plow their way through the hills, sending their magic searchlights from shore to shore.

The generation that knew and loved the valley in this pastoral time is rapidly passing away, and the newcomers who are remaking the land are in large measure of a different race, or at least it may be said there has been so strong an infusion of new peoples that the surface complexion of the towns and villages has been strangely altered. Where, in this still remembered time, the names of the inhabitants betrayed, for the most part, a remote Dutch or German origin, with a scattering contingent of English and Huguenot strain, our rural postmasters find the labor of having every few years to learn the names of even the older residents enormously increased by the necessity of answering the calls for their letters of a swarm of outlandish folk-Bohemians, Hungarians, Italians, Syrians. - Clarence Cook in Century.

#### TIRES THAT LEAK.

The Morgan & Wright single-tube quick-repair tire must be regarded as a distinct improvement in bicycle tire construction. It has the following advantages:

While punctures in it can be repaired with plugs, or semi-liquid injections, as well as in any other single-tube tire, it can be permanently repaired by using the quick-repair strip inside the tire. See cut No. 1.

By injecting M. & W. quick-repair cement through the puncture, and then pressing down on the tire with the thumb, as in cut No. 2, the repair

strip inside is picked up by the cement, thus closing the puncture, as in cut

The Morgan & Wright single-tube quick-repair tire is guaranteed not porous. This is on account of the way in which it is made. Nearly every rider has heard of tires that "leak like a sieve."

Many tires rot, because water gets into the fabric between the two layers of rubber. The Morgan & Wright fabric is proof against moisture.

Everybody knows how comfortable Morgan & Wright tires are, and yet how seldom they puncture. This is Artistic Workmen. due to the fabric.

Ask any bicycle dealer whether other tires last as long as Morgan & Wright tires. Ask, also, what the Morgan & Wright guarantee means. Morgan & Wright tires are repaired free of charge, at the factory in Chicago or at any of the Morgan & Wright free repair shops, located in

the principal cities. N. B.-When you have a puncture, get right off. Riding a tire flat, when it has a tack or nail in it, may camage it considerably.

### LET SOME CONTRACTS

The Board of Education Transacted Business.

For the Time They Spent Waiting For the Completion of the Bradshaw Building. Paid Bills-Cheaper Coal Wanted For the East End.

The board of education met last evening with members Cripps, Fisher, Mc-Clain, McGraw, Norris and Vodrey present.

The session was opened with prayer and the reading of the scriptures. The minutes were read and approved, and Mr. McGraw reported that the committee having in charge Trentvale and Gardendale schools had viewed the ground and decided to make no improvement, except in board walks. The bids for the lumber were as follows: Robert Hall, \$75; J. T. Smith, \$72.75; Union Planing company, \$68.42. They accepted the bid of the last named company, but it did love and gather all men who will renot include 10 extra planks.

"The fences are in good condition, but the people in the district have not reformed," was the way he put it.

on each side of the building, the spouts were repaired, gutters cleaned, flag staff fixed, posts put up to keep teams from driving too close to the building and the blackboards painted. The report was accepted, and Mr. McClain will act as permanent committee on the Sheridan avenue building, while Mr. Vodrey will look after the Bradshaw school.

Clerk Norris reported that four bonds which come due annally, had been redeemed, but the interest coupons were slow in coming in and quite a number due the first of the month were not in The following bills were then ordered paid: Robert Moore, \$6.08; S. C. Herron and G. H. Deidrick, \$47.50; A. Rattray, \$9.02; William Allison, \$12.75; Angus Giethlen, \$17.25; Adams Express company, \$2.35; T. O. Timmons, \$8.40; Kinsey plumbing company, \$39.50; News Re-VIEW, \$24.60 : J. H. Simms, \$10.50; Cri-\$18, \$3.75; Given & Co., \$34; Heath & Co., \$35.05; Sheldon & Co., \$14.10: American Book company, \$206.95; William G. Johnson & Co., \$182.82; H. A. Weeks, \$4; Eagle Hardware, \$4.85; Knowles, Taylor & Anderson, 45c; Diamond Hardware, \$6.42; Mrs. Roberts, \$3; Mrs. Moore, \$3; J. T. Smith, \$8; G. W. Deidrick, 35c; S. Herron, \$5; H. Deidrick, \$4.50; Will- truth. The highest reward of honesty 1am Naylor, \$6.75; H. Rinehart, \$3; Donehoo & Henneberry, \$7.51; H. Burgess, 30c.

Clerk Norris read from an act of the general assembly relating to children outside of the city limits attending city schools. It provides that where children, under 12 years of age living beyond the city and a mile and a half from the publie school, attend the city schools, a demand can be made on the directors of the township in which they live for their tuition. The matter was discussed but little, and before the next meeting the case in question will be looked up.

President Vodrey reported that they had advertised for bids for supplying the schools with coal and had received but two, that of the East Liverpool Ice and Coal company and W. H. Frazier. He suggested that they be referred to a committee, but Clerk Norris objected to this because of the discussion of last year, and the board went into a committee of the whole to examine the bids. It resulted in Mr. Frazier being given the contract, with the exception of the East End school, and unless a better rate can be secured there he will get the entire contract. At the request of one of the bidders the figures were not given to the reporters.

Mr. Cripps brought up the question whether Miss Dawson and Miss Webster, the teachers at Bradshaw school, should be paid for the time they lost while the building was being completed. There was a long discussion on the subject which finally ended in Miss Dawson getting \$15.75 and Miss Webster \$22.50.

Superintendent Rayman reported that Miss Gaver would be home Monday and resume her duties at the East End

was included in the list of principals, and will receive \$5 additional salary.

After accepting a clock from a local jeweler, the board adjourned.

# SPRING GROVE'S BOOM

Sam Jones and Another Noted Evangelist

WILL CONDUCT THE MEETINGS

It Is Proposed to Make the Meetings the Best Ever Held In This Part of the Country, and the Trustees Have Already Made All Preparations.

The speakers at Spring Grove campmeeting next season will be of national reputation, and will insure for the association a most successful season.

The trustees of the ground met last evening and accepted the terms of Rev. Sam Jones and Rev. Sam Small to conduct the services the two Sundays of campmeeting, which will commence Aug. 4, and closes Aug. 14, 1898. An endeavor was made to have Sam Jones spend the entire two weeks here, but this he was unable to do, and an evange. list of national reputation will be engaged to have charge of the meetings. W. C. Weeden, who had charge of the music during the Schiverea meetings in this city and is such a favorite with the East Liverpool and Wellsville people, will, if possible, be engaged to do the singing at the ground.

The street car line will not be extended to the ground, but a line of hacks will be run, and preparations were made to engage a field near the ground for the convenience of farmers who desire to hitch their teams.

Nearly all of the cottages have been engaged, and a number of tents will be procured for the accommodation of people who desire to spend the summer

The large tent will be raised and enlarged, so that it will be a great deal more comfortable than it has been in

The County Visitors Report the Home All Right.

The county visitors of Stark and Cospection of the Fairmount children's pire. home, near Alliance, yesterday, and report affairs in splendid condition, with the inmates about as favorably situated an institution to be, reflecting decided credit upon the superintendent and matron, Mr. and Mrs. Southworth. The visitors visit all such institutions without giving those in charge a warning of their coming, so that the standing, everyday condition may be properly reached. The superintendent and matron were absent at the time of the visit yesterday, attending to placing children at a far distant point, and looking after the welfare of children already placed in outside families. The home is under superb discipline, however, and the officers on duty demonstrated the fact that they are the right parties in the right place.

Doctor Smith, of the Stark county visitors, and Mrs. Emma Palmer, of the Columbiana county visitors, were yesterday elected as delegates to the 'seventh annual Ohio state conference of charities and correction," which is to convene in Toledo, Ohio, on Oct. 26, 27 and 28.

Recent Facts Reflecting the Political and Social Life of Europe.

The rinderpest having destroyed cattle as a factor in the all important question of transport in Africa, attention is now being devoted to the jackass, which, being proof against climate, plague and the terrible tsetse fly, seems destined to become the beast of burden of the future for the Dark Continent. Consequently the demand for donkeys has assumed such proportions that English and Dutch dealers have been buying them by the thousands for shipment to South Africa, phenomenal and altogether upprecedented prices being realized. Juasmuch as. according to the ponderous London Spectator, which has never been known to perpetrate a joke, "Ireland is at present the main home and breeding place of the English donkey," the Emerald Isle is deriving considerable pecuniary benefit from the boom in ass fiesh, and the lowly and patient "moke" seems destined to supersede the pig as a source of profit to the Hibernian peasant.

That time and distance are insuffi cient to obliterate sentiments of affection and regard for the mother country has just been shown by the fact that a number of families of Spanish descent in Rio de la Plata have recently subscribed a sum of \$200,000 for the purpose of presenting a small cruiser to the government of Spain.

In view of the abuse that is being leveled by certain American magazines and newspapers against the English people for having spent so much money in celebrating the jubilee of the queen while so many of their fellow subjects in India were starving, it may be as well to call attention to the fact that a fund of nearly \$10,000,000 for the relief of the sufferers by the Indian famine has been raised by popular subscription in the British dominions. Of this sum \$3,000,000 was raised in London alone. The government itself has devoted an immense sum toward the same purpose by means of so called relief public works, and in connection with the distribution of food, over 4,000,000 natives being at the present moment supported and maintained without any return by the British administration.

Russia's government has decided to take no further steps in connection with the trial of Theodore Kovaleff, the Tiraspol fanatic, who, in obedience to the commands of his fellow sectarians. immured and buried 15 of them alive. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased welve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nuggets, beyond the dream of avarice. Joseph Ladue then

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute—a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpared at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has evidently all this time been closely observing the conditions of that strange country—the Yukon Valley—which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any such amount of gold could be taken in so short a time from a country like that under the most unfavorable conditions was held to be incredible. But when the great bags of virgin gold began to be poured out upon mint counters in San Francisco under the eyes of the whole world (for modern journalism does this, annihilating time and space) people began to wonder and the wonder grew 

As we have already said, there is no man today alive who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical. It has not been gained from hearsay nor from desultory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights, year in and year out H. Sam Jones and Another Noted Evangelist

Best Ever Held In This Part of the Country, and the Trustees Have Already Made All Preparations.

The speakers at Spring Grove campmeeting next season will be of national reputation, and will insure for the association a most successful season.

The trustees of the ground met last evening and accepted the terms of Rev. Sam Jones and Rev. Sam Small to conduct the services the two Sundays of campmeeting, which will commence Aug. 4, and closes Aug. 14, 1898. An endeavor was made to have Sam Jones spend the entire two weeks here, but this he was unable to do, and an evange. list of national reputation will be engaged to have charge of the meetings. W. C. Weeden, who had charge of the music during the Schiverea meetings in this city and is such a favorite with the East Liverpool and Wellsville people, will, if possible, be engaged to do the singing at the ground.

The street car line will not be extended to the ground, but a line of hacks will be run, and preparations were made to engage a field near the ground for the convenience of farmers who desire to hitch their teams.

Nearly all of the cottages have been engaged, and a number of tents will be procured for the accommodation of people who desire to spend the summer at the resort.

The large tent will be raised and enlarged, so that it will be a great deal more comfortable than it has been in other years.

A communication was received from Amanda Smith, the colored evangelist, in which she stated that she was anticipating a trip to Europe, and would be unable for some time to state whether she could be here.

The excursions to Pittsburg and Cleveland today were well patronized. Extra coaches were attached to all through trains and the majority of the passengers were from this city. Not more than 75 people went to Cleveland, while to Pittsburg the number was more than doubled.

Where the people go that have moved to the city during the past week is a question that not a few are trying to solve. Almost every day the freight depot has received a moving from some place and yesterday six families moved into town. As there is a scarcity of vacant houses where they are living is a puzzle.

Complaints are now being made by the employes of the passenger station about those who bring mai! to the station to be put on the trains. Some people at times bring letters for the west to the eastern train, and eastern letters to the western train. Those who handle the mail at the station are not compelled to accept any mail, and it is expected the practice will soon be stopped, as the postoffice department at Washington has been notified, and an investigation will be made.

#### A DEFENDER OF JAPAN.

Prof. MacCauley Says the Mikado Has No Designs on Hawaii.

MINNEAPOLIS, Oct. 16.-Prof. Clay MacCauley, for the last seven years at the head of the Unitarian educational work in Japan, is in Minneapolis, and throws new light on Hawaiian annexation. He is inclined to believe the stories of Japanese occupation and colonization by disguised soldiers are circulated by the annexation lobyists in order to scare Uncle Sam into prompt action. Japan, he says, is too poor as a result of the late war ever to think of annexation of the islands. She has her hands full with Formosa at present.

Prof. MacCauley says that Japan's national sentiment is distinctly friendly to the United States and accounts of insolence to Americans have been rather grossly exaggerated or made from whole cloth. There have been some collisions between Japanese and Americans at various points, but these he says are of no more significance than brawls likely to occur between Americans and the street crowd at any foreign port. The professor is well on the inside of Japanese affairs, having received various marks of favor from the government and his statements must be taken as authoritative.

#### ATTACKED THE POLICE.

Luetgert's Attorney Declared They Intimidated Witnesses.

CHICAGO, Oct. 16.—The intensely hot weather had but little effect upon the attendance at the Lux gert trial. The courtroom was packed and hundreds of persons were unable to gain admittance. Attorney Vincent, chief of counsel for the defense, continued his address to the jury. His arguments were principally directed toward the "reasonable doubt" as to the death of Mrs. Luetgert. He vigorously attacked the police officials for their alleged browbeating of witnesses, particularly in the case of Mary Simmering, whom he declared the defendant had treated more like a daughter than an employe. The witnesses for the prosecution were held up to scorn, and Judge Vincent declared that the prosecution had done nothing but throw mud at his client, while the defense had been engaged in scraping it off.

Mr. Vincent will probably conclude his address at today's session. On Monday States Attorney Deneen will make a five hours' speech, and the case will doubtless be given to the jury late Tuesday.

#### NEW FOE TO LOGAN.

Mayor Harrison Will Not Allow Liquor at the Horse Show.

CHICAGO, Oct. 16 .- The merry war continues as to the coming horse show, hinging on the question as to whether the aristocratic Bit and Spur club, under whose auspices the equine exhibition is to be held, carries out its intention of having a "buffet" for the refreshment of its members as announced by Secretary John A. Logan, Jr. The Coliseum, where the show will be held, is in a prohibition district and Mayor Harrison declared that under no circumstances would the club be permitted to sell liquor there.

"If the Bit and Spur club attempts to sell liquor at the Coliseum the police department will treat it as it would any other offender," said the mayor.

#### CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Oct. 17. Comment by Rev. S. H. Doyle.

Topic .- "Whatever He would like to have me do,"-Ex. xix, 1-8. (A meeting to consider all oranches of society work suggested, to be led by the president.)

In the topical reference we have an account of God's first covenant with Israel. As Moses was about to ascend Mount Sinai to receive special revelations from God, God called out to him and demanded first a positive engagement on the part of the people. He called to mind His past blessings and made promises of future favors if they on their part would obey Him. In answer to this request the people responded, "All that the Lord hath spoken we will do." How like that part of the Christian Endeavor pledge which reads, "I will strive to do whatever He would like to have me do." Israel often failed in keeping ner covenant promises. Have we always been true to ours?

1. God's part of the covenant. God promised three things to His people-1. They should be a peculiar treasure unto Him. "If ye will obey My voice and keep My covenant, ye shall be a peculiar treasure unto Me above all people.' God would be specially fond of them. They would be jewels in His crown. 2. They should be kings. By the power of God that would be manifested in their lives they would control and influence the lives of others, and thus rule over them. 8. They should be priests. The priest ever had easy and free access to God. Thus they, if they were obedient, would always possess a direct way of approach to Him at all times.

2. God's proof that He would keep His part of the covenant. He appealed to the past. "Ye have seen what I did unto the Egyptians and how I bare you on eagles' wings and brought you unto myself." As the Israelites reviewed the past they could not doubt God. No more can the Christan Endeavorer who looks over the past 16 years. God's presence in the Endeavor movement and His blessing upon it are apparent to all students of the past. How marvelously He has borne this movement upon eagles' wings and carried it forward. This has been due to the fulfillment of the condition to obey His voice and keep His covenant. Success has come because Endeavorers have trusted in God and have fulfilled this vow to the Master to strive to do whatever He would like to have them do.

3. Israel's part of the covenant. "All that the Lord hath spoken we will do." This was their sweeping promise. The Endeavorer has made the same covenant. We have covenanted with Christ that we will do what He wants us to do. Let us do it better in days to come than in days gone by. If we have been neglectful or careless, let us renew our covenant vows and make it the one aim of life to do, "whatever He would like to have us do."

Bible Readings.—Ex. xx, 1-17; II NEW GRAND OPERA HOUSE, bron. xxxiv, 8-13; Ps. xc, 17; Math. J. A. NORRIS, Manager. #### "Faithful Unto Death."

Every trial, if it does its perfect work, leads us to death, to the death of some natural selfishness and to the reception of a more perfect forgiveness and more unselfish kindness. We should remember the cross as the emblem of temptation when it does its perfect NEW PLAYS, work. Naturally, when trial comes we wish it to go away and leave us as we were before. But it would not then accomplish its purpose, which is to effect a change in us, to lead to the laying down of some selfishness. We must see what selfishness needs to be overcome, we must be willing that it shall die. Then the temptation does its perfect work. It reaches to Calvary and the cross. We are faithful unto death, and a more heavenly spirit rests upon us as a crown of life.—Rev. William L. Worcester, "The Helper."

#### The Upward Way.

The upward way cannot be easy-it must be climbing to the end, but as you climb there come more love of man, more love of God, a blessing of stronger, abler, kinder, happier life, and ever growing over all a quiet, restful sense of something brighter, happier, still beyond, some crown of better life than aught we know of here, which the Lord hath, in the unfolding of the eternal years, for them that love Him .-Dr. Brooke Herford.

#### The Greater Folly.

Were a house to be in flames tomorrow and were a mother to seize her gold, and her jewels, and her rings and rush from the flames with them and forget her infant slumbering in its cradle, she would be neither so inhuman nor so inconsistent as that man who cares for the toys of a day and thinks nothing and cares nothing about a soul that stands in eternal jeopardy every hour if not justified and pardoned. - Presbyterian Banner.

#### Necessary For the Souls.

Giving is not intended to make God richer, but to make man greater. It is not the gift God wants; it is the giver. "God loveth a cheerful giver." If we keep this continually in mind and lay it to heart, it will keep us advancing along the way of true development into the fellowship of deepest life with God. Giving is as necessary for the soul's de-

velopment as exercise is for the body's. -Bishop Penick.

#### Not on Chance Alone.

God's purpose is good, else there is no God. God's purpose is not dependent upon chance, it shall be accomplished else there is no God. Christ's mission is not to offer chances but certainties. -Christian Leader.

A Statement Worth Remembering. The way to get a better position is to more than fill your present one.-Ram's Horn.
